- Table 10 is required
  - Outcomes for correctional education students

# Changes for PY 2006 (July 1, 2006 – June 30, 2007) Report

## Table 4A, Eliminated

- Table 4A reports number of students who advanced two or more levels
- **ESL Levels Revised**
  - Beginning level divided into low and high
  - Low advanced and high advanced ESL combined into one level

# More Changes for PY 2006

- Table 4B Required
  - Table 4B reports only on students who were both pre- and post-tested
- Reporting Period for Employment Measures Will Change to Match Title I Reporting

# Alignment of Reporting Periods with Title I Programs

- OMB requires alignment of common employment measures
- Adult education and Title I reported on different program years
- Title I behind due to three quarter lag in UI data system
- Applies **only** to entered and retained employment measures

# Title I Reporting Period

- Covers different calendar and program years to allow for lag in UI data systems
- Multi-year reporting is the only way a complete year of data can be reported for all employment measures
- Entered and retained employment data cover different student cohorts
- Participant data covers different student cohort

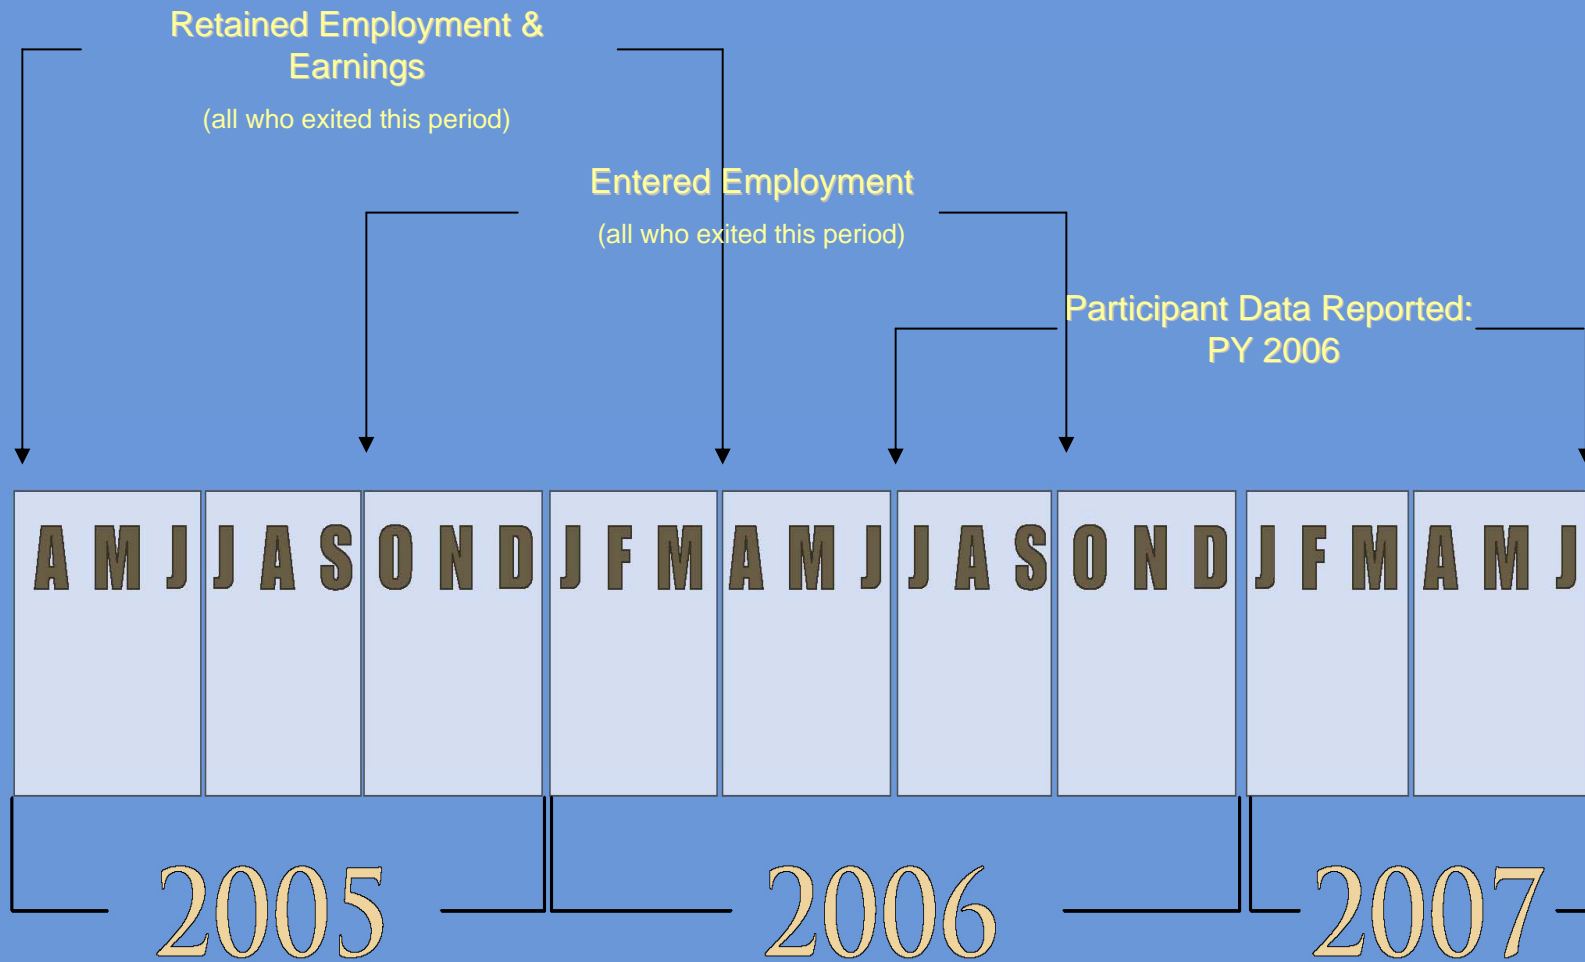

# Entered and Retained Employment: PY 2006 Reporting

- Entered Employment collected on students with employment goal who exit October 1, 2005 to September 30, 2006
- Retained employment collected on students who exit April 1, 2005 to March 31, 2006
- All other measures reported the same way as now

# PARTICIPANT DATA REPORTED: PY 2006

Reports due: December 31, 2007  
Assumes nine months in UI Data System  
Data matching: Fall 2007

# Alignment Plan

- PY 2005 is transition year—**report as usual**, but...
- Some entered and retained employment data will be reported in PY 2005 and again in PY 2006

# How Do We Implement Common Reporting?

- Data Matching States:
  - Match must follow Title I procedures for PY 2006 Reporting
  - Match in last calendar quarter of 2007
- Survey States:
  - Must survey for retained employment **all** quarters beginning with cohort exiting in fourth quarter of PY 2005
  - Must keep survey records for up to two years before reporting

# Remember

- PY 2005-06 reporting same as now
- Survey states: collect retained employment beginning fourth quarter students who exited April-June 2005 quarter
- First report with common employment reporting PY 2006 report (due December 31, 2007)
- ONLY Employment measures are affected
- We'll help you!!!!
